

# Hemispheres Think Write Cursive Handwriting Programme 1 Day Training Course

**Think Write** makes **Handwriting** easier. Makes it fun.

Our Lady of Sion School, Worthing, have a few places on their staff Think Write Training Day.

Hemispheres Think Write is the only handwriting programme, developed by Occupational Therapists, being used in classrooms in the UK and Abroad. The programme is the first one to use animal characters to associate letters by their starting shape, categorising the alphabet into animal families, with a focus on simultaneously building children's thinking and motor skills, so they can succeed.

Underpinned by neuroeducational research and 26 years of clinical experience, Hemispheres Think Write ensures schools address all aspects of learning to write, in a fun and multisensory framework, which fits easily into any Nursery - Year 2 classroom.

The day will be informative, interactive and practical so be prepared to have a go.
